## Summary

I'm a software engineer passionate about solving real-world business challenges through innovative and efficient software solutions. I thrive on aligning technology with business goals and constantly seek opportunities to improve through modern tools, frameworks, and best practices. With a comprehensive understanding of both mobile and web development—from concept to deployment—I deliver secure, scalable, and user-centric products that drive impact.

## Experience

### Senior Software Engineer (L2) at Xcorebit

Dubai, UAE - November 2024

Led the design and development of complex IoT-based solutions, taking full ownership of the project from conceptualization to implementation. Supervised architectural decisions, ensuring seamless integration between IoT devices, mobile applications, and backend systems. Collaborated with cross-functional teams to ensure robust, scalable, and secure solutions. Guided and mentored junior developers, fostering a collaborative environment and promoting best practices in software development. Delivered innovative, high-quality solutions that met business and technical requirements.

### Senior Software Engineer at CarSwitch

Dubai, UAE - January 2023 - November 2024

Lead mobile app development for enterprise projects, translating complex business requirements into high-performing, scalable solutions. Led the design and architecture of mobile applications, overseeing UI implementation, API integrations, and end-to-end release management. Collaborated closely with cross-functional teams, including managers, designers, and backend developers, to ensure seamless integration and system efficiency. Delivered user-centric features while upholding top-tier code quality and performance across platforms.

### Senior Mobile App Developer at 786mediagroup

Hinckley, UK - February 2021 - January 2023

Took full ownership of mobile app development, translating business requirements into efficient, scalable solutions. Led app architecture, UI implementation, API integration, and release management. Worked closely with designers and backend teams to ensure seamless functionality. Delivered user-focused features while maintaining code quality and performance across platforms.

### Full Stack Developer at Solutions Experts

Lahore, Pakistan - January 2019 - February 2021

Optimize web app performance, data quality, and flexibility. Handled urgent updates, content changes, and DB upgrades. Built and debugged full-stack web apps, integrating REST/SOAP APIs like Google Maps, social logins, and payments. Maintained and enhanced existing apps across frontend/backend. Collaborated with developers, QA, and CTO to ensure smooth delivery and seamless system integration.

## Education

### Bachelor's in Computer Science

University of Central Punjab | Lahore, Pakistan 2015 - 2019

## Skills
